

Hunter Checklist

To help you plan we've made a checklist for you!

- If you are rifle hunting you must have a white, red, or blaze orange jacket or vest and an orange or red hat (white or orange camouflage hat is not acceptable), this is required by law
- Hunting clothes (we suggest layered clothing to accommodate the changing weather – from nice spring days to very cool evenings)
- Rain gear, hunting or waterproof boots, warm hat, gloves
- Bug jacket, mosquito hat/face net (not required, but suggested)
- ThermaCell and refills (these are indispensable!) and bug spray
- Any cover scent or lure you like to use (personal preference, not required)
- Protective case for weapon – soft case preferred for travel to/from stands
- Seat cushion (for in tree stand)
- Tree stand safety harness
- Camera
- Binoculars (personal preference, not required)
- A regular watch - the time on Apple watches, etc. and cell phones often switch time zones (CST in SK, CDT in MB) back & forth if not set correctly
- Personal care products including towels
- Sleeping bag, bed sheet & pillow (to accommodate varying temperatures)
- Slip-on or light shoes to wear around camp, for easy removal when in and out of cabins
- All meals are provided but feel free to bring any snacks you like
- Favorite spirits/mix & bottled water
- Fishing equipment for pike and walleye if you wish to fish
- Favorite camp/camp fire chair; could also be used in ground blind (we do have chairs available)
- Cooler to transport trophy
